Press information

As from today the Central Bank of Chile’s web page will start to give daily information on exchange rate, interest rate and bond rate observed in the respective markets around midday.

This information will include US dollar value, euro and yen parities to dollar, interbank overnight lending rate, Central Bank peso and UF bond rates according to secondary market. This is for information only and does not correspond to the Bank’s legal duty to inform.

The information will be available every bank working day on www.bcentral.cl around 12.20 p.m.
